

KTV[®] WINDOW CLEANER

KTV Window Cleaner – High performance concentrated detergent.

KTV Window Cleaner is a highly concentrated detergent special designed for use with clean water systems, enhancing the overall cleaning effect. In addition to windows, it is also effective on various other materials, including metals.

*** Specifically designed for use with drones and clean water systems**

VERY IMPORTANT!

Instructions for mixing and usage.

To prepare the solution, mix the concentrate with clean filtered water **ONLY**. Start by adding 0.5 liters of the concentrate into a clean 20-liter plastic container filled with clean filtered water. Never use tap water or dirty water.

During cleaning, use a high-pressure chemical injector set to 1%. You may adjust the concentration as needed, increasing for a stronger effect, usually no more than 2%, or reducing it to 0.5%.

The solution should be applied continuously throughout the cleaning process. **It must only be used in combination with purified osmosis water.**

One 20-liter container of high-concentrate solution yields 1,332 liters of ready-to-use cleaning solution.

Production Date: See packaging.

Storage and minimum shelf life: 12 months from production date.

Safety/hazard statements concentrated detergent:

Harmful if inhaled

Causes serious eye irritation
